EXPERIENCE

Enova Robotics**,** Sousse, Tunisia   06/2024 – 07/2024
System Administrator Summer Intern

- Deployed and configured Active Directory, including setting up domain controllers and managing user accounts. Integrated AD with existing network infrastructure to ensure smooth operation.
- Established Public Key Infrastructure (PKI) using Microsoft Certificate Services. Set up Certification Authorities, configured certificate templates, and managed digital certificates for secure communications.
- Implemented Organizational Units (OUs) and Group Policies. Created OUs to organize users and computers, and developed Group Policies to enforce security settings and streamline management.

EDUCATION

TEK-UP University**,** Ariana, Tunisia   2023 - Present
Engineer's Degree, Security of Computer Systems and Networks
Relevant Courses: Computer Architectures, Networks Security, RHEL Administration, Windows Administration, Pentesting, OWASP, Cloud Computing, Blockchain, Assembly, Cryptography, Decentralized Version Control.

Faculty of Science**,** Monastir, Tunisia   2020 - 2022
Pre-Engineering Degree

PROJECTS

Inspectra: Advanced Static Analysis Solution

- Developed a web app for secure file uploads and automated malware detection using YARA rules.
- Integrated YARA analysis, generating detailed reports on matched malware signatures.
- Implemented secure file handling with robust validation and protection against unauthorized access.
- Implemented unique result links to maintain confidentiality and controlled access to analysis outcomes

Rogue: Real-Time Process Monitoring

- Tracks and logs commands executed by Linux user accounts in real-time.
- Implements color-coding for easy identification of users (root, current users, services) in logs.
- Designed to run efficiently without consuming significant system resources.

CERTIFICATIONS

- Professional Penetration Tester – **INE Security**
- Junior Penetration Tester – **INE Security**
- Web Penetration Tester – **INE Security**
- Red Hat Certified System Administrator – **RHEL**
- Certified Associate Python Programmer – **Python Institute**
- Certified Network Security Practitioner – **SecOps Group**
- Certified AppSec Practitioner – **SecOps Group**
- Blue Team Junior Analyst – **Security Blue Team**

SKILLS & OTHER

Operating Systems: Linux (Debian, RHEL, Ubuntu), Windows.
Cybersecurity Tools: Splunk, ELK Stack, Metasploit, Wireshark, Burp Suite, Ghidra, OWASP ...
Skills: Network Security, Penetration Testing, SIEM, Vulnerability Management, Host and Networking Auditing, Assessment Methodologies, Digital Forensics, Open-Source Intelligence (OSINT), Threat Hunting

LANGUAGES

Arabic: Native; **English**: Advanced; **French**: Advanced
